EXEMPLAR 2014

MEMORANDUM

MARKS: 150

This memorandum consists of 20 pages.

1. SOURCE-BASED QUESTIONS

1.1 The following cognitive levels were used to develop source-based questions:

COGNITIVE LEVELS	HISTORICAL SKILLS	WEIGHTING OF QUESTIONS
LEVEL 1	<ul style="list-style-type: none"> Extract evidence from sources Selection and organisation of relevant information from sources Define historical concepts/terms 	30% (15)
LEVEL 2	<ul style="list-style-type: none"> Interpretation of evidence from sources Explain information gathered from sources Analyse evidence from sources 	40% (20)
LEVEL 3	<ul style="list-style-type: none"> Interpret and evaluate evidence from sources Engage with sources to determine its usefulness, reliability, bias and limitations Compare and contrast interpretations and perspectives presented in sources and draw independent conclusions 	30% (15)

1.2 The information below indicates how source-based questions are assessed:

- In the marking of source-based questions, credit needs to be given to any other valid and relevant viewpoints, arguments, evidence or examples.
- In the allocation of marks, emphasis should be placed on how the requirements of the question have been addressed.
- In the marking guideline, the requirements of the question (skills that need to be addressed) as well as the level of the question are indicated in italics.

2. ESSAY QUESTIONS

2.1 The essay questions require candidates to:

- Be able to structure their argument in a logical and coherent manner. They need to select, organise and connect the relevant information so that they are able to present a reasonable sequence of facts or an effective argument to answer the question posed. It is essential that an essay has an introduction, a coherent and balanced body of evidence and a conclusion.

2.2 Marking of essay questions

- Markers must be aware that the content of the answer will be guided by the textbooks in use at the particular centre.
- Candidates may have any other relevant introduction and/or conclusion than those included in a specific essay marking guideline for a specific essay.
- When assessing open-ended source-based questions, learners should be credited for any other relevant answers.

2.3 Global assessment of the essay

The essay will be assessed holistically (globally). This approach requires the teacher to score the overall product as a whole, without scoring the component parts separately. This approach encourages the learner to offer an individual opinion by using selected factual evidence to support an argument. The learner will not be required to simply regurgitate 'facts' in order to achieve a high mark. This approach discourages learners from preparing 'model' answers and reproducing them without taking into account the specific requirements of the question. Holistic marking of the essay credits learners' opinions supported by evidence. Holistic assessment, unlike content-based marking, does not penalise language inadequacies as the emphasis is on the following:

- The construction of argument
- The appropriate selection of factual evidence to support such argument
- The learner's interpretation of the question.

2.4 Assessment procedures of the essay

2.4.1 Keep the synopsis in mind when assessing the essay.

2.4.2 During the first reading of the essay ticks need to be awarded for a relevant introduction (indicated by a bullet in the marking guideline/memorandum), each of the main points/aspects that is properly contextualized (also indicated by bullets in the marking guideline/memorandum) and a relevant conclusion (indicated by a bullet in the marking guideline/memorandum) e.g. in an answer where there are 5 main points there will be 7 ticks.

2.4.3 The following additional symbols can also be used:

- Introduction, main aspects and conclusion not properly contextualised

2.5. The matrix

2.5.1 Use of the matrix in the marking of essays

In the marking of essays, the criteria as provided in the matrix should be used. When assessing the essay note both the content and presentation. At the point of intersection of the content and presentation based on the seven competency levels, a mark should be awarded.

- (a) The first reading of extended writing will be to determine to what extent the main aspects have been covered and to allocate the **content level** (on the matrix).

C	LEVEL 4	

- (b) The second reading of extended writing will relate to the level (on the matrix) of **presentation**.

C	LEVEL 4	
P	LEVEL 3	

- (c) Allocate an overall mark with the use of the matrix.

- The NP saw that majority rule did not mean the introduction of communism
- The collapse of communism was a critical factor that led to change in South Africa
- De Klerk's speech of 2 February 1990 brought an end to apartheid

- Conclusion: Candidates should tie up their argument with a relevant conclusion with regard to how the collapse of the Soviet Union led to change in South Africa or how external and internal pressure led to this change.

In stating that the fall of the Soviet Union influenced political changes in South Africa to a lesser extent, candidates should include the following points in their answer:

INTERNAL FACTORS

- In the 1980's the South African government faced a transformed world order
 - South Africa became isolated/most neighbouring states had attained independence
 - By the end of 1989 the Soviet Union was disintegrating/The Berlin Wall had fallen
 - Changes in the world contributed to the end of apartheid
 - The collapse of the USSR deprived the ANC of its main source of support
 - The National Party's claim to be protecting South Africans from a communist onslaught became unrealistic
 - Western world powers supported the move that South Africa resolve its problems peacefully and democratically
 - The government started to believe that reform is needed to include the development of a strong black middle class which would act as a 'bulwark against revolution'
 - The PW Botha 'total strategy' did not work
 - PW Botha suffered a stroke and was succeeded by FW De Klerk
 - FW De Klerk started to accept that the black struggle against apartheid was not a conspiracy directed from Moscow
 - This enabled De Klerk to engage in discussions with the liberation organisations
 - On 2 February 1990 De Klerk announced 'a new and just constitutional dispensation'
 - He was declaring the end of apartheid
 - Any other relevant response
- Conclusion: Candidates should tie up their argument with a relevant conclusion.

Candidates can also indicate that it was both the internal and external factors that contributed to change in South Africa. [50]
